\$25 Prize

Judy Taubinger, *Lonely Bush*

JUDGES

Knut LSG Hybinette

Knut was born in Enköping, Sweden and he is Associate Professor in Digital Media and Game Design at Tarleton State University. Knut received a bachelor of the Arts from the University of Georgia and a Master of Fine Arts from The School of the Art Institute of Chicago.

He works with game design, photography, animation, video, and sound – creations exhibited and screened worldwide including in Sweden, Portugal, Germany, and the United States. He has been in over 175 International/national art shows. Knut's work was published in the American national publication, Oculus, and he created Night Chicago, a commissioned portfolio for the city-sponsored by Tanqueray Gin. Knut has a series of photographs that speaks to the process of aging, narratives inspired by individual stories of loved ones. This body of work was exhibited at the Arts Atrium Gallery in New York and Jet Artworks Gallery in Washington, DC.

Knuts' animation work focuses more on story-telling through animation: dark shorts that are often macabre, visuals that force the audience to suffer through brutal human and animal indignities, upfront and subsumed messages of morality, often with feminist undertones. Recently, Knut received 107 pilot licenses to fly drones and he started a successful drone studio.

Megan Ehrhart

Megan is an Associate Professor at Tarleton State University where she teaches animation and films, and runs the student film festival.

Megan earned her MFA in Film from Syracuse University and her BFA in Illustration from Maryland Institute, College of Art.

Megan is an animator, filmmaker, small-scale sculptor, monster-maker and puppet master who embraces surreal kinematic imagery, beautiful and haunting. Her films intermix the tangible, physical realm with the endless otherworldly possibilities of digital CGI. Her work often deals with an effort to unlock the darkest repressed arenas of our subconscious minds and resolve questions brought on by pareidolic visions and hypnagogic dream states. Live people, crafted objects, fantastical creatures, and transient ethereal environments evoke universal human emotions and illuminate transformations of ego that invade and persist. Her films and experimental animations screen in media festivals worldwide and have won awards.

Her short films have won awards globally, including Best Claymation for "Lobe Massage," and Audience Choice Award for "Lucid Lunch."

Megan's sculptures, puppets and installations are exhibited in galleries and on- location sites internationally.

2022 Spring Art Show and Sale

Farina's Winery and Café

May 27th- June 9th
